Gary:

To answer your question re: TSWQS, those values apply and cannot be trumped by fish tissue data.

Since Table 4 has saltwater fish SW RBEL values, I assume those were used to screen Intercoastal Waterway data?

If so, a similar comparison of saltwater fish SW RBELs for the wetlands ,and a comparison of freshwater fish SW RBEL values x 10 for the ponds, would be useful.

>>> Luda Voskov 12/4/2009 11:02 AM >>>
I have send it.

Hi, Kip!
Do you need the report or just this table 4. Should I fax the table to you?
What is the fax #?

>>> Joseph Haney 12/3/2009 4:43 PM >>>
I got a call from Gary Miller about the TSWQS comments. I need to look at the May 2009 Nature & Extent Data Report, probably Table 4.[attachment "Joseph Haney4.vcf" deleted by Gary Miller/R6/USEPA/US]
